What has happened in the case of Miguel De Los Santos at the courts of New York is not the law.

We have been able to see in the habeas corpus, detailed in the website for migueldelossantos.com, that it has nothing to do with transparent justice, as it should be.

We demand to the competent authorities an immediate revision of such case.

This is not the spine of our constitution, to use a guarantor of false arrest and also a fraudulent indictment to condemn an American citizen.

Lo que ha pasado en el caso de Miguel De Los Santos en los tribunals de New York no es ley.

Hemos podido ver en el habeas corpus, detallado en su pagina de internet migueldelossantos.com, no es algo que tiene que ver con una justiciar transparente como debe ser.

Demandamos a las autoridades competente una inmediata revision de dicho caso.

Eso no es la columan vertebral de nuestra constitucion, utilizar un guarantee de aresto falso y un endainment Tambien fraudalanto par acondenar un ciudadano americano.

So por un control
